

How do I work?

My way of working is very simple. I just need you to **answer three questions**, and we'll be ready to rock.

1

What do you need?

Call me, text me, email me... and **explain what you need**. Maybe you don't even know very well what you're looking for yet, but no worries, we'll figure it out ;)

It's very important that you give me any references, ideas or thoughts that you have about the project.

This will help me calculate how many hours it will take me so I can give you a more precise estimate.

2

What is your budget?

No matter what you're looking for, the price will always be **\$40/hour**. Why did I ask you for your budget then?

Knowing your budget will help me know what route to take with your project.

If you don't have a very big budget, you'll probably want me to optimize my time and spend it on what really matters to you. However, if you have a more comfortable budget to work with, I'll manage my time to include more of the details and present you with an impeccable project.

3

What is your timeline?

When do you need your project done?

I'm a freelancer and I juggle a number of projects at the same time.

Depending on my workload, I may be able to start your project right away or it may take me some days or week(s) to start.

Let me know what your timing is and I'll work with you to start as soon as possible!

If the scheduled timing doesn't work for you and you need your project done sooner, we can make it work but we will have to adjust the price.

Thank you.

Feel free to contact me whenever you need to. I'll be available by email or phone. **Talk to you soon!**
